PROFESSIONAL SUMMARY

Result-driven Workflow Automation Specialist with extensive experience in streamlining business processes through automation tools such as Zapier, Make, n8n, Google Apps Script, and API integrations. Passionate about optimizing workflows, reducing manual effort, and increasing operational efficiency for businesses and freelancers.

TECHNICAL SKILLS

- **Workflow Automation & Integration:** n8n (Advanced Chains, Agents), Zapier (Multi-Step Zaps, Webhooks, Formatter), API Ingestion.
- **AI Integration & Prompt Engineering:** LLM Deployment (Groq, OpenAI, Anthropic), System Prompt Engineering, JSON Mode Optimization.
- **Data Manipulation & Scripting:** JavaScript (ES6+ Data Cleaning), JSON parsing, Regular Expressions (Regex), Type-Casting & Validation.
- **Databases & Communication Tools:** Airtable, Google Sheets, HubSpot CRM, Slack API Integration, Microsoft Office Suite (Word, Excel, PowerPoint).
- **Enterprise Software Platforms:** POS Systems, Knowcross (Property Operations Platform).

AI AUTOMATION PROJECTS & PORTFOLIO

- **AI-Driven Financial Ledger & Discrepancy Pipeline** | n8n, Groq LLM, Airtable, Slack, JavaScript
- Built an automated n8n pipeline that processes email invoices, uses a defensive LLM/JavaScript layer to parse non-deterministic markdown into structured database floats, and flags financial discrepancies instantly via Slack.
 - **Live Voice AI Salon Receptionist & Follow-Up Pipeline** | n8n, Voice AI, CRM, Calendar APIs
- Architected a real-time pipeline that processes voice-to-text streams to automate client scheduling and triggers event-driven follow-up workflows to maximize appointment retention.
 - **I-Driven Product Listing Optimization System** | n8n, OpenAI API, E-commerce Data Sync

- Engineered an n8n workflow that uses OpenAI to mass-transform raw product specifications into SEO-optimized descriptions while enforcing strict validation guardrails for marketplace compliance.
 - **AI-Driven Feedback Analytics & Ledger Sync Pipeline** | n8n, Gmail, OpenAI, Google Sheets, Error Handlers
- Engineered an automated n8n pipeline that ingests Gmail feedback, routes data through logical switches/filters to parse metrics via an LLM, syncs entries to Google Sheets, and utilizes conditional error-trigger nodes for fault tolerance.

Additional AI & Web Projects

See [Link at top of CV] for a live collection of full-stack automations, AI builds, and responsive frontend applications.

WORK EXPERIENCE

- **Cabin Steward | Magsaysay Maritime Corporation (P&O Cruises)** | Jul 2022 – Apr 2026
 - Managed daily physical inventory logistics, precision resource allocation, and strict task prioritization schedules within a high-pressure international environment.
 - **Room Attendant | Sureste Properties, Inc. (Solaire Resort Entertainment City)** | Nov 2019 – Jul 2022
 - Managed high-volume service queues and real-time asset tracking using enterprise software (Knowcross) while executing fast-paced workflows under strict luxury-tier corporate SOPs.
 - **Room Attendant | Acacia Hotel Manila** | Apr 2019 – Sept 2019
 - Maintained backend operational logs, updated shift performance metrics, and managed localized asset allocation to streamline daily room turnovers.
 - **Sales Associate | Forever Agape & Glory, Inc.** | Sept 2018 – Feb 2019
 - Managed point-of-sale (POS) transactions, reconciled daily internal inventory logs, and optimized customer order tracking to ensure smooth retail operations.

Additional Experience: Corporate Operations Internships at Philippine Airlines (420 Hours) and Kartini Hotel (300 Hours).

EDUCATION

Bachelor of Science in Tourism Management | Graduated 2018 International School for Hotel and Restaurant Management (ISHRM)
